INTER-IoT

Integrator & Manager of Internet of Things Systems
3rd edition

Academic Year 2020 - 2021

Welcome the challenge of the new generation of smart, distributed and cyberphysical systems and choose to become an expert of Internet of Things (IoT)

The **Postgraduate Master INTER-IoT** was designed jointly with the ICAR Institute of the Italian National Research Council and 20 national and international universities, research centers, and companies. The training program will be driven by teachers coming from academy and industry that are experts of the most advanced IoT technologies.

The Internet of Things expert is a professional able to analyze, design, implement and manage complex IoT ecosystems, integrating them into the next -generation ICT systems and processes in future application domains such as Industry 4.0, e-Health, Smart Cities, GRID, Energy, Logistics, Transportation, etc.
